

## **Block Lotto – November 5, 2024**

**Poppy Block** – 8 inches finished and 8.5 inches unfinished

**Colours** – Red, Black center, white background

### **Cut:**

Red Fabric: 4 – 4.5-inch squares

Black Fabric: 4 – 2.5-inch squares

White Fabric: 4 – 2.5-inch squares

### **Stitch and Flip -**

Draw diagonal lines on the backs of the black and white 2.5-inch squares.

With right sides together sew one black square to the top right corner of a red 4.5-inch square. Trim the excess fabric  $\frac{1}{4}$  inch from the seam, press seam outward. With right sides together, sew one white square to the left corner of the red square. Trim the excess fabric  $\frac{1}{4}$  inch from the seam, press the seam outward. The red square should look like a house with a white sky to the left and a black sky to the right. Continue to stitch and flip with the other three red squares.

Once you have finished the four blocks sew them together with the black triangles in the centre of the block. You can then trim your block to 8  $\frac{1}{2}$  inches square.

HINT: If you press one of the seams outward and the other inward you can “nest” the seams when you sew the blocks together making it easier to accurately piece this block.

I have added a tutorial below.
