

MOD Broads — **Build a Stack Instructions**

Create a STACK, approximately 12" wide and 16" long — or whatever size you wish.

You will need rectangles of assorted fabrics (7 or 8 in all), 2 1/2" wide and varying in length from about 5" to 10". HINT: Choose an anchor fabric and select other fabrics which relate in some way (colour, pattern, etc.), i.e., which look good with it.

You will also need 2 1/2" strips of your background fabric. Choose a neutral for your background: white, cream, gray, black, etc.

Arrange your coloured rectangles in a pleasing stack. Vary the colours, stagger the lengths. Practice until you are happy. Take pictures along the way.

Use your background strips to finish out the rows in your stack. Sew these strips together to make your STACK. Sandwich and quilt it if you wish, or just make a block, which you can either use yourself or pass on to the Donations Committee.
